See Theresa Griffin's extensively researched and sourced discussion of the origins of Edward Griffin and the myths which have been associated with the Griffin family. Edward Griffin, son of John ap Gruffudd Griffithes and Ann Langford died by 1622 in England. The same goes for Sgt. John Griffin of Simsbury of Simsbury, CT. Theresa Griffin writes that DNA evidence has ruled out that the two of them were brothers and that the John Griffin who was the son of John ap Gruffudd Griffithes and Ann Langford died by 1624 in England. Theresa Griffin writes that "we have unequivocal evidence that this Pengriffin family cannot possibly be the ancestors of our Edward Griffin of Flushing or of Sgt. John Griffin of Simsbury. The men in question had been dead for more than ten years before the Abraham or the Constance departed London in October of 1635." She also writes that the coat of arms that are associated with the Griffin families in the U.S. belong to completely different families. "The coat of arms attributed to the descendants of Edward Griffin, Sgt. John Griffin, and Jasper Griffing, was actually awarded to Griffin Appenreth, of Calais, who died in 1553, leaving no male heirs. No American or Canadian Griffins have rights to the following coat-of-arms, family crest, or motto" Sincerely, Tamas Caldwell-Gilbert Tamás Flinn Caldwell-The link for Theresa Griffin's research is here: Gilbert C http://freepages.rootsweb.com/~theresagriffin/genealogy/debunkingwe... 2/19/2020 at 10:31 PM Tamás Flinn Caldwell-Gilbert thank you. We have a 2/23/2020 at 2:21 PM whole bunch of cousins here. I envy you the trip to Wales. I've traced my line back to Wales only recently. My mom had always said I had a fingernail sliver of Welsh but I was too little to wonder from where that Welsh came. Rhodri the Great, king of the Britons He might be yours, too. You are so lucky to have run so far down your lines. I've been doing this off and on since I was a teenager, seriously since I've been here, and still have brick walls. Good for you. :) **Market** Lord Bruce Ross Myers Hey, Mr, you are so good to have one person decide whether or not you are doing the right 2/23/2020 at 11:54 PM thing, but I would suggest that ya think before you act, cause we are not the smartest around and so confident that you are the solution, but you can't get ahead of yourself and assume that what is already on the lineage is true, knowledge it was put there for a reason, that the knowledge is true, to try to stop the lineage for people to have piece of mind and you look for outs to forbid them there right to there own family to change what is true to invalid lineage for what you not beyond a reasonable doubt to believe that the information that you preceding is true, not looking for Theresa Griffin's research, you are on what page?? Just go and disconnect the lineage without consulting the truth to life itself to stop us from connecting to the past, what was on there connect it back up please of we are dealing with my family lineage, which you are not in between the line there, you have no authority to judge what is right or wrong here, please if you have anything to do with this lineage I am the only autority for any modifications to this line, stop. He enlisted in the King's service, was convicted of justifiable manslaughter and pardoned by the King 7 Jan. 1625. In 1633 he was financial agent for Lady Wake. He left London for Virginia 24 Oct. 1635, aged 33, with his brother John in the the ship Constant. He entered the service of Capt. William Claybourne and was captured on Palmer's Island in 1638 by soldiers of Lord Baltimore. He escaped and came to New Amsterdam in 1640. He is said to have settled in Flushing in 1653, but would seem to have been living in Gravesend in 1656. He was one of the signers of the the Flushing remonstrance against Governor Stuyvesant's order forbidding the harboring of Quakers, 27 Dec. 1657. In 1661 he was a resident of Oyster Bay, and on Sept. 23rd of that year he acted as interpreter between the Indians and John Richbell in the purchase of land in Mamaroneck. Some time before 1675 he settled permanently in Flushing. He sailed for England on 14 Dec. 1678 in the ship Blossom, but later returned to Flushing. In 1686 he petitioned in behalf of his son John in relation to his share of the common lands of Flushing. I use Family Search all the time for records and citations to link to profiles here and there. It is an amazing site used correctly, but like all others, it can be deflected and unsupported. The links you provided show profiles with no or just a basic source that really doesn't connect Edward past coming over from England. This link https://www.familysearch.org/tree/person/details/LJGM-31H has really no sources except for some Gedcom data or Ancestry update that we cannot see and an inconsistency that indicates a child was born before the father. I'm crushed when things don't work out like I thought they were, but I don't see the evidence and that is of course, just my opinion. Best, Susanne **Market** Lord Bruce Ross Myers Sgt. John Griffin of Simsbury. has nothing to do with this, are you serious you trying to relate to 2/24/2020 at 6:31 AM someone else, has anyone even read that article of Theresa Griffin's extensively researched and sourced discussion of the origins of Edward Griffin and the myths which have been associated with the Griffin family. Edward Griffin, son of John ap Gruffudd (Pengruffwnd) and Ann Langford died by 1622 in England. Ya but no, this John of Simsbury has nothing to do with this family. Once you get this far removed, it is just a box on the tree. Trick is, is it the right box? 2/24/2020 at 7:57 AM The quest for truth is ever present. Erica Howton C From http://freepages.rootsweb.com/~theresagriffin/genealogy/debunkingwe.. 2/24/2020 at 10:31 AM Dr. Siddons' contention was borne out on page 15 of Zeno's manuscript The Lineage of Richard Griffith, which was taken directly from Burke's book: Griffin (Penrith, Wales) Gu. on a fess betw. three lozenges or, each charged with a fleur-de-lis of the first, a demi-rose, betw. two griffins segreant, of the field. [58] How did this coat of arms come to be part of the Griffin family lore? I have been advised by many genealogists that it was not uncommon for those who immigrated to the colonies to bring coats of arms and family crests with them to elevate themselves in society. This subject and its importance was particularly prevalent in the early years of the twentieth century, where social status was far more important than today. It was clear that not all Griffin historians were convinced about the ownership of these arms. As early as 1924, Justus Griffin voiced his doubts about his family's ownership of this coat of arms. On page 10 of his book, after discussing a silver plate engraved with the coat of arms described above, which was owned by a descendant of Jasper Griffing, he wrote: Some of the descendants of Edward Griffin, of Flushing, have convinced themselves that he also was of the family which bore those arms, and made use of them. Whether that is a fact or not is of little consequence now, and the arms are shown here as an interesting relic. [19] At this point, we have substantial proof that the coat of arms which William Crozier attributed to Sgt. John Griffin of Simsbury, belongs to the Parry family, and therefore, the descendants of Edward Griffin in America and Canada cannot rightfully claim or use these arms. [55] {59} Erica Howton C http://freepages.rootsweb.com/~theresagriffin/genealogy/debunkingwe... 2/24/2020 at 10:34 AM Debunking the Published Griffin Family Myths: Edward Griffin of Flushing was not Edward Pengruffwnd (Pengriffin) of Walton West, Pembrokeshire, Wales Summary The following work details the results of eleven years of research on the life and times of Edward Griffin who was born about 1602, somewhere in Britain, who arrived in Virginia late in 1635 or early in 1636 aboard the vessel Abraham, and who died after 1698, in Flushing, New York. For those simply interested in the outcome of this research, I offer the following four assertions; the remainder of this account reveals the circumstances which lead to my conclusions, as well as a list of my supporting references. The sources are bracketed [] and the notes are braced {} for convenience. Please cite my work if you use it. You are welcome to use any of the information here for your personal use; commercial use is not granted. 1. Neither Edward Griffin nor Sgt. John Griffin of Simsbury, Connecticut, was related to the Pengruffwnd/Pengriffin family of Walton West, Pembrokeshire, Wales. The man who was born Edward Pengruffwnd (Griffith/Griffin) was dead by 1622, and his brother, John Griffith, died in 1624. [1] [2] 2. Edward Griffin of Flushing, and Sgt. John Griffin of Simsbury, were not brothers and did not share a common blood relative within the past 10,000 years. There is solid DNA evidence (12 samples) that not only disproves their relationship, but clearly shows they had different haplogroups. [3] 3. Jasper Griffing of Southold, also did not share a common blood relative with Edward Griffin within the past 10,000 years. There is solid DNA evidence to prove this assertion, though I have not thoroughly investigated his potential relationship with Sgt. John Griffin of Simsbury. [4] 4. The coat of arms attributed to the descendants of Edward Griffin, Sgt. John Griffin, and Jasper Griffing, was actually awarded to Griffin Appenreth, of Calais, who died in 1553, leaving no male heirs. No American or Canadian Griffins have rights to the following coat-of-arms, family crest, or motto: Gu[les] on a fesse betw[een] three lozenges or, each charged with a fleur-de-lis of the first, a demi-rose betw[een] two griffins, segreant of the field/ of the first Crest – A griffin segreant Motto – Semper paratus [5] [6] [7] [8] I welcome any additions, corrections, questions and alternative theories. This is an ongoing project, and will be amended as new information is found. Despite my best efforts to accurately record my findings, I realize I may have made errors and welcome your comments. Before contacting me, I ask only that you read the following rationale, as your questions may have been answered below. Theresa Griffin Tamás Flinn Caldwell-Lord Bruce Ross Myers The issue at the heart of this problem is that Edward Griffin of Flushing Gilbert C and John Griffin of Simsbury (whom you are descended from) have been commonly associated with two brothers listed in Lewys Dwnn's 1613 Heraldic Visitation of Wales. This is the 2/24/2020 at 10:35 AM Pengruffwnd family. What Theresa Griffin's research shows is that the John and Edward listed in that visitation died long before your ancestors came to the Americas, therefore they cannot be the same people. Also, Theresa Griffith demonstrates that the detailed biographies that you listed for Edward Griffith of Flushing are simply constructed from compilations of random mentions of Edward Griffins in English historical documents, without any evidence they they refer to the same If you have evidence that counters Theresa Griffin's research then please put it forward. By evidence I mean primary sources (not internet family trees) that directly links Edward Griffin of Flushing, NY or John Griffin of Simsbury to a specific Edward or John Griffin in England/Wales. Joni Danielle Sneed, Lord Bruce Ross Myers We are cousins, 11th I think. I, too, have multiple lineages that lead back to the nobility of long BSN, RN PRO ago. I feel your pain, watching your tree get chopped here and there. I just lost a connection to 2/24/2020 at 10:44 AM King David...(Lol, curators) What I realized is that the curators are amazing and extremely capable. They have access to much more information than I do! I trust them to be careful, and to listen when I disagree. If we can't provide acceptable primary sources, which is what I believe they are asking you for, then it is really up to us to prove our connections. My suggestion is to view this as a learning experience. Despite your lineage, you don't "work for" Geni like the curators and some of the more learned pros do. They have guidelines to follow. It's not an insult to you, it's just the way they have found to keep the tree as accurate as possible, probably an impossible task, but a goal to be pursued in this monumental endeavor. I also understand that there is a tendency in all of us to take this personally. I'm sure you have much documentation and a private tree? Don't rely on Geni to prove or disprove your claims. Continue to work on your private tree and use Geni as a resource. If you and your family have proof of your claims, then be happy! Some people are descendents and don't even know it, and most of us can't prove it beyond the shadow of a doubt. I have trees every where, and they evolve and change over time just like any other living thing. What we think we know is most assuredly going to change over time. Knowledge is not a static thing. It grows and changes. Example: the Flat Earth Theory. Any monumental endeavor requires an empirical approach, and the information on Geni is supported by empirical data/documentation. I love this site the reams of information that is available at a keystroke. I find the discussions lively and rigorous. What I don't like is the bitterness and insults. I can bring out the worst in some of us. We are all in the game called life together. Let's not forget that we are all brothers and sisters of. We are all related, Kings and Criminals, plague victims and coal miners. Good luck to you, cousin, on your journey of discovery.
